Projects

Instagram Clone – Next.js, TypeScript, MongoDB, Prisma, Auth.js, Tailwind | instagram-clone-nextjs-five.vercel.app

- Instagram-like social media experience with user authentication, post creation, editing, deletion, likes, comments, bookmarking, and a follow/unfollow system for personalized interactions.
- MongoDB and Prisma integration for efficient data storage and management of users and posts.
- Pinata API for decentralized image uploads, ensuring secure and reliable storage, along with React Hook Form + Zod for seamless form validation.

AI Image Generator – Next.js, TypeScript, MongoDB, Prisma, Auth.js, Tailwind | ai-image-generator-nextjs.vercel.app

- AI-powered image generation with text prompts, allowing users to create unique images and download them effortlessly.
- Secure authentication and MongoDB storage, enabling users to save, manage, and retrieve their generated images efficiently.
- Framer Motion integration, providing smooth animations and an enhanced user interface for a visually engaging experience.

Quiz App – Next.js, TypeScript, MongoDB, Prisma, Auth.js, Tailwind | quiz-app-nextjs-two.vercel.app

- Timed quiz experience with a 30-second countdown per question, ensuring an engaging and challenging gameplay.
- User authentication, score tracking, and leaderboard, allowing users to securely log in, save scores in MongoDB, and compete with others.
